

# Our Vision and Ethos

At **M**ickleover **P**rimary **S**chool, our vision is to create a school community where children are **M**otivated to learn, **P**roud of their achievements, **S**uccessful and skilled for life.

## How will we do this?

### **MPS encourages everyone to be motivated to learn through:**

- Developing a broad and balanced curriculum with an emphasis on creativity and having fun;
  - Ensuring learning has a purpose;
- Creating a safe, welcoming environment where children want to learn;
- Developing an enthusiasm for learning inspired by quality teaching and experiences.

### **MPS encourages everyone to be proud of their achievement by:**

- Encouraging everyone to do their very best;
  - Building and developing upon individual strengths and talents;
- Valuing and celebrating all achievements both from within and outside of school.

### **MPS enables the children to be successful and skilled for life through:**

- Striving for the highest possible standards of achievement and behaviour in a stimulating environment;
- Developing skills to enable them to not only access their next stage of learning but become active citizens of the future;
  - Developing skills to enable the children to become active and responsible members of the school and their own community;
- Using parents and external organisations as aspirational role models.
