Key Learning

- ✓ Why are medicines important?
- ✓ What is medicine? How can we use it responsibly?
- ✓ What are harmful substances?
- ✓ What are the positive and negative consequences of drugs?
- ✓ What should we do when faced with risks?

Being Safe with Medicine

You tell your friend you have a sore throat. She offers you some medicine the doctor gave her, when she had a sore throat last year.

What should you do?

Where should we store medicines safely?
